ORGANISATION VIEW:

1. Name: [Organization Name]

- The name of the organization is BeautyOnLongUnisex Salon, it is in CBD 232 Long Street, it provides any kind of hairstyle in both men and women it has great and relaxed atmosphere.
- History of the Organization

The BeautyOnLongUnisex Salon was found by Asange Jack ,she had a well-built mind when she was still in High School about starting her own business when she finishes school, Asange had no clear vision while she was thinking of initialing the business, but had in mind that she had a skill of doing different types of hairstyles. After her academic year she evaluated what she had planned and took advantage of it and gathered all she could by initializing as a small business and it potentially grew to be the biggest salon to be known as it was published through social platforms.

- Mission and Vision statement

The mission of this business is to be well presented amongst the community or else amongst other organizations that are likely to operate the same way it does, also to meet any requirements dedicated on what the customers need at any time so that the business could also be recommended by other individuals .The vision is to first receive great income through the hand work that has been done to multiple customers as there will not be only the women's but male humans also, then after that the money invested can built a better premise that will be recognized and have nice appearance which leads to potential preference by customers.

- Target audience

The business will be targeting the young adults that have jobs which can afford the prices that will be promoted by the owner Asange, old women are the other target audience, as they also do hairstyles too for special occasions, as for them when they have to go to churches dinners and other places. Toddlers are the target audience because their parents like to make them look good when going to school, some of the parents will pay with their social grant, male beings are also the target audience ,more especially those who are instituted in Universities, they are targeted because of the allowance that they get from NSFAS.

2. WEBSITE GOALS AND OBJECTIVES:
